

## A very special gift

### Function of the organs

Cut out the cards. Match the name of the organ to its function.

<b>heart</b>	breaks down and digests food
<b>skin</b>	helps with digestion and regulates blood sugar
<b>kidney</b>	controls all of the body
<b>liver</b>	cleans the blood
<b>brain</b>	used for breathing
<b>lungs</b>	pumps blood around the body
<b>stomach</b>	protects the inside of the body
<b>pancreas</b>	supports nearly all the organs in the body, it breaks down fat and produces energy
