

I did it!

Professionals who give support for babies and children

Cut out the cards.

Match these professionals with the support they give for babies and children.

Key worker	surgery to rebuild or repair skin and body problems, such as burns or a cleft palate
Neonatal nurse	speaking and language
Occupational therapist	skills such as sitting, crawling, standing and walking
Paediatrician	special educational support for children with learning difficulties or disabilities
Physiotherapist	help with daily activities such as dressing, eating and using the toilet
Plastic surgeon	information and coordinating support from different professionals
SENCO (Special Educational Needs Coordinator)	care for premature or sick new born babies
Speech and language therapist	general health and development problems
