I miss my friend

Gap fill text message - answers

Hi Zahara! I **lost** your number when I changed my phone but I met someone who knows you. She gave me your number. It's such a long time since we **met** in the park. Do you remember me? You helped me with my English and we did some exercises together. I made you a special tea when you had a cold and a cough. You were my first friend in this country. I would love to see you again. Hope to hear from
